

Dear Students,

Congratulations and welcome to Semester I of the Post Graduate Diploma in Customs Clearance & Freight Forwarding (PGDCCFF) for the **2024-25 batch!**

Course Program Outcome

The diploma certification in this program offers an in-depth knowledge base beyond the everyday operational demands of customs brokers and forwarding operations. The Master's in Customs Clearance & Freight Forwarding is a rigorous program designed to equip students with essential knowledge and skills for careers in customs clearance and freight forwarding.

Program Highlights:

- **International Trade Environment**
- **Customs Regulations and Procedures**
- **Freight Forwarding Processes**
- **Documentation and Compliance**
- **Transportation and Warehousing**
- **Risk Management**
- **Research Methodology and Project Management**
- **Ethics in Customs Clearance**

In addition to coursework, students will complete a research project, culminating in a project report that demonstrates their research skills and application of knowledge to real-world problems. This program prepares students for advanced roles in the industry and offers pathways into academia, research, or consulting.

Learning from Industry Experts

The PGDCCFFL program is taught by experienced professionals, providing students with the opportunity to learn from industry experts and gain practical experience through internships and field projects.

Value of the Program

This diploma is a valuable credential for anyone aspiring to work in customs clearance and freight forwarding. It provides the necessary skills and knowledge to succeed in this growing industry. In today's interconnected global economy, efficient and compliant customs processes are essential for the smooth movement of goods across borders. This program prepares students to meet these challenges effectively.

Ethics and Professional Conduct

The program emphasizes the importance of ethics in customs clearance. Students will learn about ethical principles and how to make ethical decisions in the workplace.

Learning Outcomes

Graduates of this program will be able to:

- Demonstrate a comprehensive understanding of customs clearance principles, regulations, and best practices.

- Ensure compliance and efficiency in customs processes for import and export operations.
- Analyze tariff classifications and notifications to accurately determine tariff codes.
- Apply relevant Free Trade Agreements (FTAs) and case laws to comply with customs regulations.
- Optimize supply chain operations, considering warehousing, inventory management, and distribution.
- Assess and manage risks associated with customs clearance.
- Utilize data analysis techniques for informed decision-making.
- Employ problem-solving and critical thinking in customs clearance challenges.
- Communicate effectively with stakeholders in the customs process.
- Collaborate in teams to develop solutions for real-world customs scenarios.
- Utilize relevant technology to enhance operational efficiency and compliance.
- Gain practical experience through internships or work placements.
- Engage in continuous professional development to stay updated on industry trends and innovations.

Course Unique Selling Proposition (USP)

Recognized by the Ministry of Finance & Revenue, this program qualifies diploma holders to appear for the Regulation 6 examination of CBLR 2018, enabling them to become licensed customs brokers. This credential allows graduates to manage operations, finance, and documentation in logistics and freight forwarding, in addition to customs clearance.
